PROGRESS OF THE WORK.

The Electric Towers Will Be Wired This Week.

The work of preparing for the tower system is going on rapidly. The towers are now in place, and the wiring will be done this week. John L. Shaw, of the Electric Light and Power company, is personally superintending the setting up of the big engines that have been purchased especially for the new system. The steam will be generated by a battery of four Sterling boilers, which are furnished under a guaranty to heat ten pounds of water with one pound of coal. The engines are of the compound condensing type, and contain all the latest improvements. The low-pressure cylinder is completely jacketed with live steam from the boiler, and encased in a covering of mineral wool. In this way the highest efficiency attainable at the present time is secured. If one-horse power could be developed by the combustion of five pounds of coal a few years ago, it was considered reasonably economical. Those engines will give a horse power for every twenty-four ounces of coal consumed.

"I think the council has made one mistake about the towers in the suburbs," said Mr. Shaw yesterday.

"What is that?"
"They've made them just fifty feet too high; there is no necessity for towers more than 100 feet high where the buildings are not more than two stories and the light would be much better. We are putting in about \$60,000 worth of improvement in order to fill our contract with the city in an acceptable manner. Under the old rule of letting the contract from year to year this could not have been done for at the end of the year our contract might have been lost to a lower bidder and our plant would have had to lay idle. Under the five year plan we are protected. We shall probably start our new engines about the fifteenth of next month."

WILL SING FOR CHARITY.

Local Artists Who Will Appear at Hartman's Tonight.

The Children's Home concert will be given in Hartman's hall tonight. An admirable program has been arranged, and the different numbers will be executed by the city's best local talent. In part one Mrs. W. H. Knapp will render "Concerto," by Goltzman, Miss Mildred Denning, Cavallina, "Una Voce," from "Il Barbiere," by Rossini; Mr. J. Francis Campbell, "Toreador's Song," from "Carmen," Bizet; Mrs. W. H. Knapp, "Andante and Caprice," by Schubert; Miss Elizabeth Bruce, mezzo-soprano, selected solo. The second part has been well chosen. It will consist of selections from Carmen's "Rose Maiden," the argument of which is as follows: The queen of the flower fairies, weary of a life of unbroken calm, prays of the newly-returned Spring that he will bestow upon her also the gift of love that he bestows upon man. He warns her of the risk she runs, but finally yields to her entreaties by changing her, while she sleeps, into the form of a beautiful girl. Under the name of Roseblossom she wanders through the world to find the love that she seeks, and meets with a girl who, having been betrayed and deserted by her lover, loses her senses and dies broken-hearted. But, undeterred from her search, Roseblossom becomes the wife of a forester, with whom she lives for a time in such perfect happiness that she cannot survive his death. In addition to those above mentioned Mrs. James A. Pantland and Mr. A. H. Morehead will take part. Mr. R. A. Wellenstein will act as accompanist.

WILL SIGN A PROTEST.

The American Lumbermen Protest Against Free Lumber.

Several hundred lumber manufacturers and wholesale dealers throughout the United States have issued the following call for a national convention of lumber dealers to be held at Washington March 1. The following Grand Rapids firms have signed the call: Daniel McCoy, The Brookings Lumber company, and The Michigan Trust company.

To the Lumber Manufacturers and Wholesale Dealers of the United States, Greeting:

In 1891 \$13,500,000 value of Canadian forest products were imported into the United States, that sum representing repressed manufacturing capacity in the states, and causing a loss to laborers approximating \$9,000,000.

A bill has been introduced in congress for placing lumber on the free list. There is danger ahead! United and prompt action is necessary!

You are requested to meet in mass convention in Washington, D. C., at 10 p. m., March 1, 1902, for the purpose of considering the subject of American markets for Americans—in so far as it applies to lumber, and for the transaction of such other business as may come before the meeting.

Numbers count! Come and assist in averting disaster from your business interests!

SAD TALE OF A MASHER.

He Comes to Grief in Kustner's Watering Trough.

A young lady who lives on the hill came down town Sunday evening to call a physician to attend her sick sister. As she was waiting for the car at the corner of Ottawa and Bridge streets. A fresh-looking, well-dressed young man accosted her and invited her to take a walk. The young lady was frightened out of her wits and ran across the street to escape. He followed and she fled again. So eager was the young man on the chase that he did not see Kustner's watering trough until he caught his toe and plunged headfirst into the icy water. "Wow! Wow!" he bawled. "What shall I do? What shall I do?" "You'd better hold your head in there for an hour or so," advised a man who had just come upon the scene. It was noticed that several thirsty horses turned away from that trough yesterday without drinking.

One More Effort.

President Turner of the lately dissolved Owanitawash club has issued a call for a meeting to be held at the

Morton house, Wednesday evening at 8 o'clock. He desires all persons interested in the formation of a new club to be present. If a meeting is held and anything that can be construed into enthusiasm is displayed, a lively effort will be made to effect a reorganization. If the usual indifference is manifested, President Turner will proceed to sell the effects of the organization.

THEY DOUBT THEIR ABILITY.

The Horsemen Reject the West Michigan Track Proposition.

The Horsemen's association has rejected the proposition of the West Michigan Fair association in regard to the lease of the track and grounds. The horsemen could not see their way clear to assume the responsibility for \$20,000 worth of bonds.

The directors of the Horsemen's association formulated a proposition to be submitted to the society. The proposition is for an annual rental of the grounds and racing facilities at the rate of \$1,000 a year. The horsemen promise to expend \$5,000 in the erection of new stalls, this amount to be credited to them for the first five years' rent. A committee was appointed to submit the proposition to the resident directors of the society as soon as possible. The rejection of the West Michigan society's proposition will not interfere with this year's race meetings, as the Horsemen's association has the use of the grounds during the coming season.

Streets to be Re-named.

Alderman Carpenter, chairman of the committee to whom was referred the report of the city engineer in regard to changing the names of those streets which are duplicated, or so near so as to cause confusion, has been laboring diligently to disentangle the snarl which has been assigned to him. In the first ward there are of this character six streets, second ward, three; third ward, two; fourth ward, six; fifth ward, seventeen; sixth ward, seven; seventh ward, one; eighth ward, four; ninth ward, six; tenth ward, thirty-five. There are three Earle streets, the only difference being in the spelling. One other street which is known by three different names, etc. This similarity has a tendency to cause confusion and retard expediency in the delivery of mail. A report will be made to the council next Monday night recommending the necessary change.

Towser is an Angel Now.

Two small colored boys are making lots of trouble for the residents of Clancy street and vicinity. They stole wood from Supervisor Frost's wood pile and a pair of roller skates from his barn. He detected them in the act and gave chase. The boys called a ferocious looking dog and directed his attention to the advancing supervisor. It was the first time the dog had ever seen Mr. Frost, but he immediately became very much attached to him. The brute was subsequently choked off and killed and Mr. Frost hopes his wounds will be healed before he is obliged to sit again on the board of supervisors. He thinks the boys should be sent to the reform school.

At Temple Emanuel.

The Rev. Caroline J. Bartlett of Kalamazoo lectured at Temple Emanuel last evening, her subject being, "A Pilgrimage to the Homes of Shakespeare and George Eliot." Mrs. Bartlett was greeted by a fairly large audience, who seemed very well pleased with the lecture. A visit by proxy to the birth place of anybody is not necessarily an event in one's life, although the actual visit may have been so to the substitute. Mrs. Bartlett's lecture in the main was an account of her personal visits, and the emotions she had experienced—two difficult topics to bring before an audience; but by her vivid and picturesque descriptions she aroused the interest of the audience and sustained it through the entire lecture.
